WED • APR • 30 • 6:30 pm

Geohazards in a Changing Climate

From landslides to floods, climate change is reshaping Earth's landscape and increasing geohazard risks. This talk introduces the basics of geohazards and explores how warming temperatures, shifting patterns, and extreme weather drive natural disasters. Join us for a closer look at the forces shaping our future!

SPEAKER

**Maureen Matthew,
Engineering Geologist,
PhD Candidate, Dalhousie University**

Maureen is a professional engineering geologist with over 15 years of experience in geoscience and geotechnical engineering at Stantec Consulting Ltd. She is currently completing a Ph.D. on coastal geohazards in northeastern Canadian fjords.

Come early and visit the exhibit free of charge:
Our Climate Quest: Small Steps to Big Change,
from Science North.

Join us for engaging talks on climate change and the exhibit, **Our Climate Quest: Small Steps to Big Change,** from Science North.

Starting February 19, sessions run every second Wednesday until June 11, 2025.

Free museum admission from 5 pm to 8 pm, speaker sessions at 6:30 pm.
